DESCRIPTION

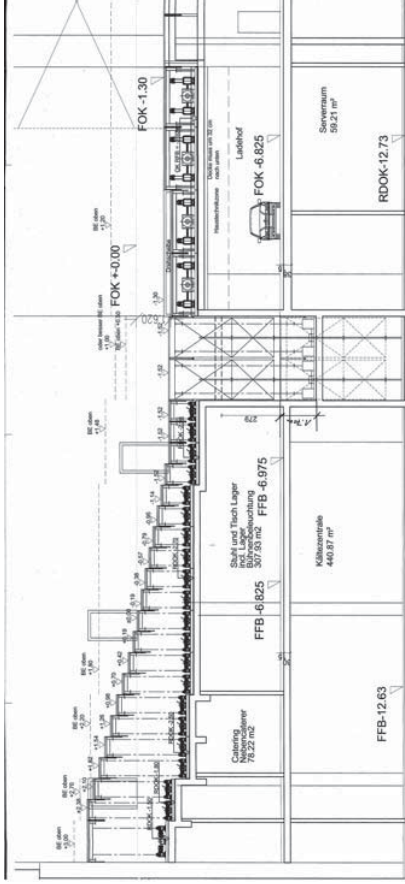

The BMW Welt München is a place of meeting, presentation and cultural events. The main idea is to have a market place under "the roof of the world" to create a Worldwide communication concept.
The design promises multiple possibilities to use this place.
The complete project associates open-mindedness and communication.
Our material is installed in the Forum as a multifunctional venue.
The use of this place is very flexible for a lot of various activities such as conference, congress, car presentation, cultural events, theatre, concerts.
