

CHARLES AND DEE WYLY THEATER AT THE AT&T PERFORMING ARTS CENTER

SERAPID's scope of supply for the Wylly Theater includes 46 LinkLift telescopic lifting columns to support the proscenium lift, seating wagon lift, six seat configuration lifts, six turntables, and 12 seating riser lifts. The lifts are comprised of LinkLift 80, LinkLift 50 and LinkLift 30 lift columns. The SERAPID LinkLift columns allow for quick set up of six pre-set stage arrangements: proscenium, thrust, traverse, arena, studio and flat floor, allowing the theater to accommodate a variety of different performances.
